Great.

I'll get this done today.

Thanks for the Ft. Wayne update!

Briefing paper format attached to fit the FW briefing.

FYI – I initialed my concurrence on the amendment and it is with Pat.

It doesn't really fit but it is the latest. Maybe something like the OECA format used in the Bodine Minntac briefing attached

Is this the format that we should use for the Ft. Wayne briefing?

Subject: Fwd: Briefing Paper Model Update

At the DD meeting today, Jim Payne asked if we had a standard format for briefing papers. In particular, Jim noted that Cathy and Kurt like options/alternatives included with pros and cons for those alternatives. The attached template has that element. I will let you know if we get feedback from Cathy and Kurt that they like this format.
